Hammers Auto Repair...What Our Customers Say:

Our first experience with Hammers Auto repair was contacting them after our vehicle was wrecked. They did an outstanding job – also very helpful and considerate. Even brought the finished product to my office so I wasn't inconvenienced when the car was finished. They did an wonderful job – the car is perfect!

I so appreciate knowing I can trust your word and work. It's very reassuring to this single old lady to know with confidence that your service will be fair and top quality every time. Hoping not to need your services again, but if I do or if a friend needs a recommendation, you got it! Thank you.
